CARROUSEL
DU LOUVRE
PARIS

ORGANISED BY

ATELIERS D'ART
DE FRANCE

Organised by Ateliers d'Art de France, the International Heritage Fair is the leading event for the sector. Every year, it welcomes over 300 exhibitors and over 20,000 visitors, from the general public and professionals alike, over 4 days at the Carrousel du Louvre, in Paris.

The fair brings together all the stakeholders in the industry under a single banner, recognising and promoting the fine crafts and built professions at local, departmental, regional, national and international level, and contributing to building tomorrow's heritage together.

As the leading economic and institutional platform dedicated to the cultural heritage community, the International Heritage Fair has become a true landmark for the major key actors in the sector: professionals in the restoration and preservation of built and non-built heritage, both tangible and intangible.

A major market place, over 300 exhibitors representing more than 40 professions are present each year to meet professionals from the sector, specifiers who supply orders, property owners and heritage enthusiasts.

A rich programme makes it **the epicentre of the sector for 4 days**, initiating synergies between exhibitors, visitors, experts and institutions. Through the different themes covered each year, the International Heritage Fair has established itself as the **main forum for reflection on the heritage sector** - its issues, its topicality, its challenges. The only one of its kind in the world, this annual event is a forum for discussion and debate for the entire heritage sector, providing an opportunity to forge contacts with a public of specifiers who supply orders, as well as visitors who are connoisseurs and enthusiasts.

In 2026, the fair will be held **from 29th October to 1st November at the Carrousel du Louvre (Paris)**, for its 31st edition on the theme of **'Lighting up Heritage'**, which will celebrate light in all its forms, through the craftsmanship that shapes and reveals it, lighting solutions for built heritage, and the art of lighting design.
